Mapping mobility – pathways,
institutions and structural effects
of youth mobility in Europe

Data generation

MOVE will provide a quantitative integrated database on European youth mobility

Analysis

MOVE will analyse mobility of young people in the EU and generate systematic knowledge about young people's mobility patterns

Reflection

MOVE will develop a theoretical framework to reflect youth mobility

Recommendation

MOVE will give research-informed recommendations on how mobility of young people can be 'good' both for socio-economic development and for individual development

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 649263.
