Data generation
MOVE will provide a quantitative integrated database on European youth mobility

Analysis
MOVE will analyse mobility of young people in the EU and generate systematic knowledge about young people’s mobility patterns

Reflection
MOVE will develop a theoretical framework to reflect youth mobility

Recommendation
MOVE will give research-informed recommendations on how mobility of young people can be ‘good’ both for socio-economic development and for individual development

This project has received funding from the European Union’s Horizon 2020 research and innovation programme under grant agreement No 649263.
